Hogan was the only Flatcoated Retriever running and no other FCR has run at this event for at least 12 years (according to the Keeper of Holkham Hall).

The event is every two years and 12 teams started and then on the afternoon of the second day 6 teams went forward to the finale.

The final retriever was on the far side of the river and all members had to send across the river and then way up to the far side right up to the crowd to specific areas to complete the test.
