

## ***Founder Members Memorial Fund Flatcoated Retriever Society***

This fund is in memory of founder members of the Society who have given great knowledge, experience and help towards the well-being of Flatcoated Retrievers and their owners during their lifetimes.

The Flatcoated Retriever Society was founded in 1948 and today's owners are indebted to the small band of breeders who provided the foundation for the breed as we know it today. This fund is dedicated to them.

### ***AIMS***

To provide educational grants for those wishing to study a wide range of conservation subjects and dog related activities, in particular those pertaining to the Flatcoated Retriever.

*(The above drawing was sketched by a Founder Member, Amelia Jessel, and donated to the Society)*

In the past, the fund was built up by various fund raising activities, including sale of the Colin Wells prints which have provided the Fund with a capital sum on which it earns interest.

The Colin Wells prints are still available at a cost of £15.00 plus post and packaging.

### ***OBJECTIVES***

1. To provide support for those with a background or connection with Flatcoated Retrievers to extend their knowledge into veterinary studies, breed conservation and other dog-related subjects.
2. To encourage good breeding practices using the experience and expertise of senior members as a resource.
3. To encourage Flatcoat owners to extend their knowledge and skills so as to expand all aspects of their dog's natural abilities.
4. To ensure that the future of the breed is healthy and in capable hands.

## **ADMINISTRATION**

The fund is administered by a Sub-Committee of the Flatcoated Retriever Society. Grants are made primarily to members of the Society. However Flatcoat owners who are not members will be considered.
