

Flatcoated Retriever Sires 2019

The data in the table below is taken from the Kennel Club's Records as **of 15 March, 2020** and shows the stud dogs used from January 2019-December 2019 as published in the Kennel Club Breed Records Supplements, the number of litters each dog has produced, and their Coefficient of Inbreeding (COI) taken from the Kennel Club's Mate Select online programme. Where there is no information available for a particular dog at present, you will find 'n/d'. The average COI of the Flatcoated Retriever is 6.2%; the higher the COI the greater the risk of inheriting a deleterious mutation from both parents increases. An inbreeding coefficient of 12.5% means that there is a 1 in 8 chance that a dog will inherit the same version of a gene from the same dog that appears in both the sire's and dam's pedigree. The Kennel Club will no longer accept puppies for registration from mother/son, father/daughter or brother/sister mating. The COI of puppies born from these combinations would be at least 25%. Puppies born from a grandfather/granddaughter mating would have a COI of at least 12.5%. Taken from the Flatcoated Retriever Society's Code of Ethics: "Extensive use of any particular stud dog is actively discouraged "and the Society does not recommend mating half siblings (half-brother/half-sister).

Mate Select on the Kennel Club Website: <http://www.thekennelclub.org.uk/services/public/mateselect/Default.aspx>

Follow the link to find out more about genetic diversity, individual COI, individual health test results, mating inbreeding coefficient prediction, estimated breeding values (EBV's) for hips and further breeding information.

Notes to table:-

Dogs with a COI above breed average are in red

Dogs with a COI of breed average and below are in green

- % of litters sired in 2019—the higher the % the more likely this dog is a "new" stud dog being used. Dogs that are becoming less popular will have lower % figures.
- Litters are taken from the KC Breed Record Supplement for each quarter of the year in which they are registered
- In the 'cumulative litter' column any overseas litters that are on the Kennel Club website have been included

Name of Stud Dog	COI %	Cumulative Litters	Litters 2019	Jan-March 2019	Apr-June 2019	July-Sept 2019	Oct-Dec 2019	2019 as % of Total Litters
Almanza Rush Your Engines to Levliann	1.0	18	4	1		1	2	22%
